

# LASER CLINIC FAQs

## **What services do we provide?**

- IPL (Intense Pulsed Light) Photofacial
- Microdermabrasion
- Laser Hair Removal

## **What is a Photofacial?**

- A great way to remove sun spots, broken capillaries, spider veins & reduce fine lines. Works well on rosacea & can help reduce the precursors of skin cancer.

## **What is Microdermabrasion?**

- Assists in the process of shedding old skin cells making your skin look younger & healthier. A relaxing procedure to treat your skin to.

## **How does Laser Hair Removal work?**

- The laser light is attracted to color in the hair shaft & stops the root from growing again. After 4-6 treatments, you will be hair free.

## **Is childcare included with my service?**

- YES! Childcare is FREE during your Laser Clinic appointment.
